EL 145 - Electronic Timer

EL 145 - ELECTRONIC TIMER

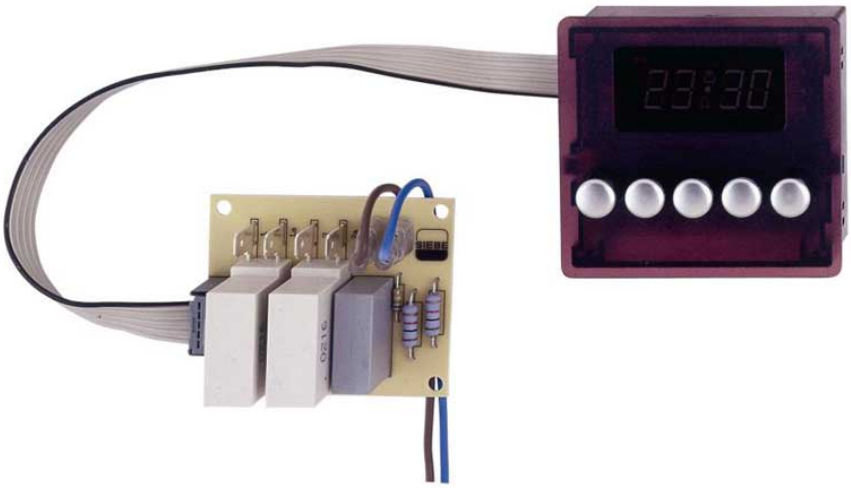
Five button operation timer with minute minder, semi, hand and full automatic program VFD display

TECHNICAL DESCRIPTION

Technical data
- display 10 mm vacuum fluorescent with 3 symbols
- clock time 24 h
- supply voltage 230 V~/50 or 60Hz
- ambient temperature optional: 0 to + 120°C
- connections 6,3x0,8 mm fastons
- minute minder time 23 h 59 min
- duration time 10h
- end time 23 h 59 min
- buzzer alarm signal for program end (tree different frequency manual adjustable)
- switch operation by relay 250 V~, 50 Hz

Optional
- 60 Hz, clock time 12 h
- switch operation with second relay (250V~, 16A)
- housing transparent colour for behind front mounting or housing coloured for front mounting (colour according RAL table)
- button length, colour and form according demand
- pyrolitic cleaning function 0 to 2 h 59 min
- one buzzer frequency

EL 145 - ELECTRONIC TIMER



Five button operation timer with minute minder, semi, hand and full automatic program, VFD display, meat probe
