EL 2000 – Electronic Timer

EL 2000 - ELECTRONIC TIMER

Three button timer with minute minder operation for T 120°C environment

TECHNICAL DESCRIPTION

Technical data
- display 12,5 mm vacuum fluorescent with 4 symbols
- clock time 24 h
- supply voltage 230 V~/50
- ambient temperature 0 to +120 °C
- connections 6,3x0,8 mm Fastons
- minute minder time 23 h 59 min
- duration time 10 hours
- end time 23 h 59 min
- buzzer alarm signal for program end (tree different frequency manual adjustable)

Optional
- 60 Hz, clock time 12 h
- switch operation with 1 or 2 relays (250V~ 16A)
- housing transparent colour for behind front mounting or housing coloured for front mounting with symbols (colour according RAL table)
- button length, colour and form according demand
- simple adjustment for summer and winter time

EL 2000 - ELECTRONIC TIMER

Three button timer with minute minder operation for T 120°C environment

TECHNICAL DESCRIPTION

Technical data
- display 10 mm vacuum fluorescent with 3 symbols
- clock time 24 h
- supply voltage 230 V~/50
- ambient temperature 0 to +120 °C
- connections 6,3x0,8 mm fastons
- minute minder time 23 h 59 min
- duration time 10 hours
- end time 23 h 59 min
- buzzer alarm signal for program end (tree different frequency manual adjustable)

Optional
- 60 Hz, clock time 12 h
- switch operation with 1 or 2 relays (250V~ 16A)
- housing transparent colour for behind front mounting or housing coloured for front mounting with symbols (colour according RAL table)
- button length, colour and form according demand
- simple adjustment for summer and winter time

LED 2000 - ELECTRONIC TIMER

Three button operation timer with minute minder, semi automatic operation for T 105 °C environment

TECHNICAL DESCRIPTION

Technical data
- display 12,5 mm, LED, 4 symbols, colour red
- clock time 24h
- supply voltage 230 V~/50
- ambient temperature 0 to + 105 °C
- connections 6,3x0,8 mm Fastons
- minute minder time 23 h 59 min
- duration time 10 hours
- end time 23h 59 min
- buzzer alarm signal for program end
- dcf77 radio signal for exact daytime

Optional
- 60 Hz, clock time 12 h
- switch operation with 1 or 2 relays (250 V~ 16A)
- housing transparent colour for behind front mounting or housing coloured for front mounting with symbols (colour according RAL table)
- button length, colour and form according demand
- display colour green
